Don't Overlook Any Diamonds

Kimberley was going back. The farmers were disgruntled. They said they couldn't eke a living from the rocky soil.

And all the time, their ragged youngsters were playing with diamonds!

But the farmers didn't know. Many of them died poor. They thought the priceless gems were pebbles.

Some folks are just like those Kimberly farmers. They seek opportunity in some distant place and overlook the wealth that is daily within their grasp.

Advertising is a diamond mine of opportunity. It tells of values you would probably overlook if it was not there to guide you.

Don't miss the advertisements in this paper.

They save money—and make it for you!
